### PICTURE CAPTIONS

#### National Workshop on Christian Unity

# 80106/1 At the National Workshop on Christian Unity in Seattle, March 10-13, the Rt. Rev. Arthur A. Vogel, left, Bishop of the Episcopal Diocese of West Missouri, presented a paper on infallibility. In an address to the Episcopal and Roman Catholic diocesan ecumenical officers, Bishop Vogel contended that infallibility is never found in an individual but rather is exercised in a conciliar way. The test of time, he said, may be applied to infallible pronouncements and time may prove or disprove validity of a statement. In the center above is Archbishop Edward W. Scott, Primate of the Anglican Church of Canada, and on the right is Bishop Louis E. Gelineau of Providence, R.I. (Photo Credit: Donald E. Becker).

# 80106/2 Bishop Remi de Roo, left, Roman Catholic Bishop of the Diocese of Victoria, British Columbia, made a presentation on "Unity in Canada" at the National Workshop on Christian Unity in Seattle, March 10-13. In the center is Dean Lewis Mudge of McCormick School of Theology, Chicago, who spoke on "New Directions in Recognition of Ministries," and at the right is Dr. Robert Welsh, chairman of the Workshop. # 80106/3 The Rev. Lewis Lancaster of Atlanta presided at a session of the National Workshop on Christian Unity in Seattle when Dr. Cora Sparrowk, left, and Frances Maeda spoke. Dr. Sparrowk spoke on the ways in which Church Women United can contribute to the work and the methods of the ecumenical movement. Frances Maeda spoke on the Church and the Asian experience and she noted the progress made in race relations and the fact that the ecumenical movement is now accepting the reality of ethnic churches in full association with their denominations and the ecumenical experience as a desirable thing.
